

# Sample Book Donation Request

Dear Families,

Research has found that students who are in classrooms with well-stocked classroom libraries read more and become better readers than students who aren't. For this reason, it is my goal to build a high quality library in my classroom this year. I would like to share with you some ways that you can help your child have access to high-quality literature:

- Donate any unwanted books from your home to our classroom.
- Shop at garage sales or used library book sales for quality children's books.
- Order books for your child through the monthly book orders I will be sending home. Not only will your child benefit by receiving reading material for home, but the classroom will also benefit from the bonus points which will be spent to acquire more books for our classroom library.
- Consider donating a book to our classroom in honor of your child's birthday. (I can give you some suggested book titles).

Thank you in advance for your help in strengthening our classroom library this year!

Sincerely,

Your child's teacher
